

Director's Corner

Welcome to Apple Tree School. Please take an active role in your child's education and development. Talk to your child about what he or she is doing at school. Join us at Apple Tree by volunteering some of your time. Together as a team we can make your child's pre-school experience a meaningful one.

Vision and Hearing Screening

Why does my child have to be screened? **State Law** requires that all children who turn 4 years old as of September 1 have a vision and hearing screening that year. We are fortunate this year that **Sugar Land Speech and Language** is donating the screening for speech, hearing and vision. The service will be provided on Wednesday, October 18. A very special thanks to Karen Dulyunan for providing the service. If you do not wish to have your child screened at the school, you will need to submit documentation about your child's screening to be included in the schools' report to the Texas Dept. of Health. Please remember that many complications related to Vision and Hearing problems can be addressed by early detection.
